CLICK HERE to access the Virtual Immersion Campus

6. A new internet browser window opens and you are asked to download the software « Virbela.dmg ». Choose the second option « Save the file ».

If the download doesn't start automatically click on « Problems with the download? Download for PC or MAC now » in the newly opened window (top of the window under « Your download should begin automatically »).

Note: The Virbela software works on both PC and Mac laptops and desktops. The developer is currently working on an iPad compatible version.

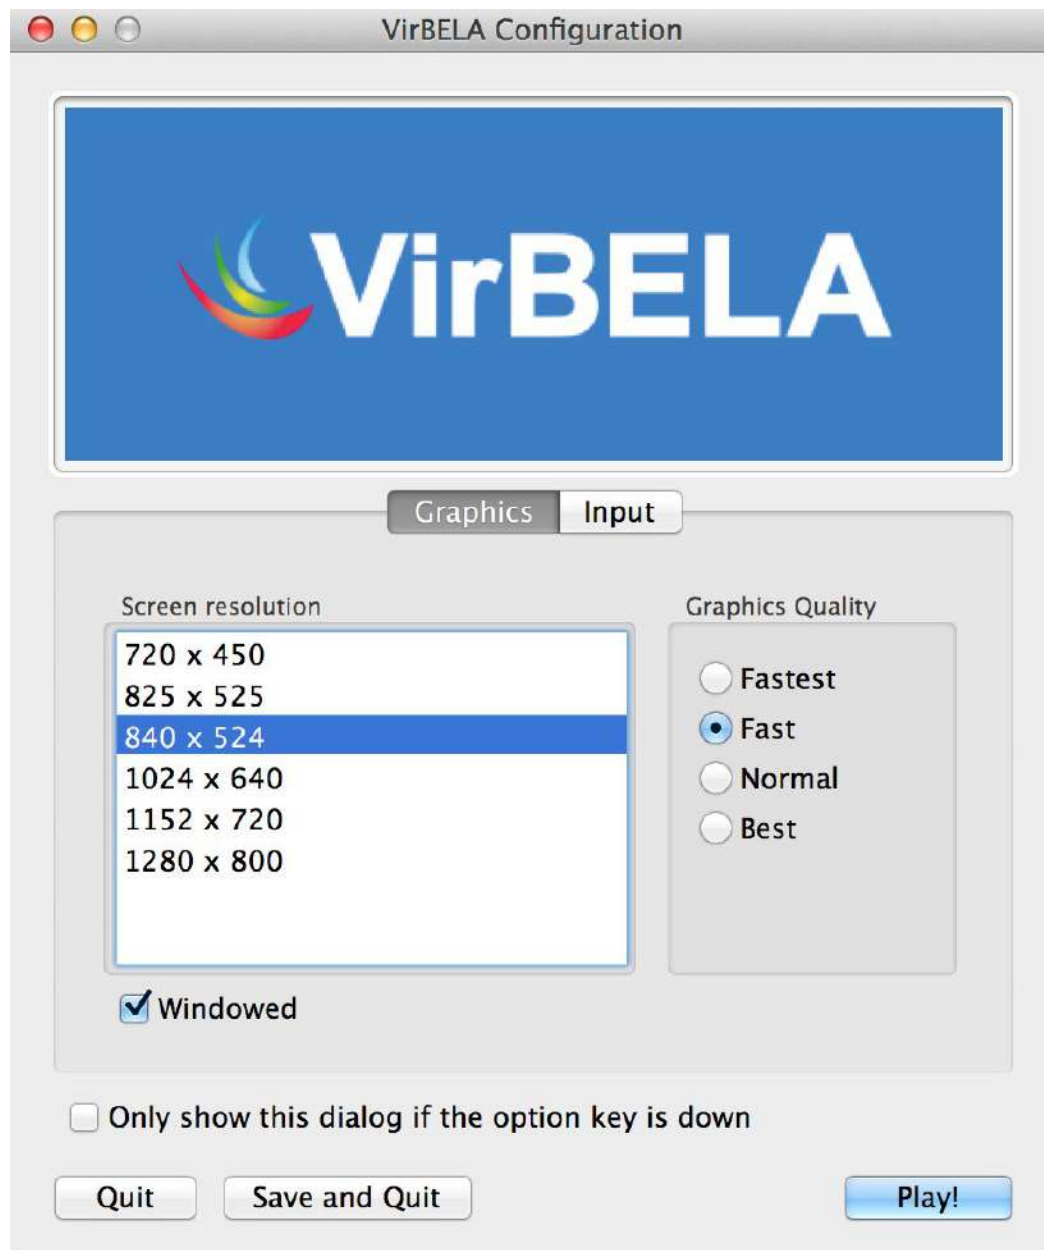

7. Once the download is complete, launch the software.

If it doesn't open, go to your computer's applications folder and look for Virbela software or a file named « Virbela - Voilà Virtual Immersion Campus ». Double click on it. A window will show the progression of the files installing on your computer.

8. Once the installation is finished, the following window opens. Select the screen resolution you want and click on « Play! »

9. Create your account by clicking on the « Register » button at the right.

! \ If you have several children, you need to use as many different email addresses as the number of personal accounts you want to create).

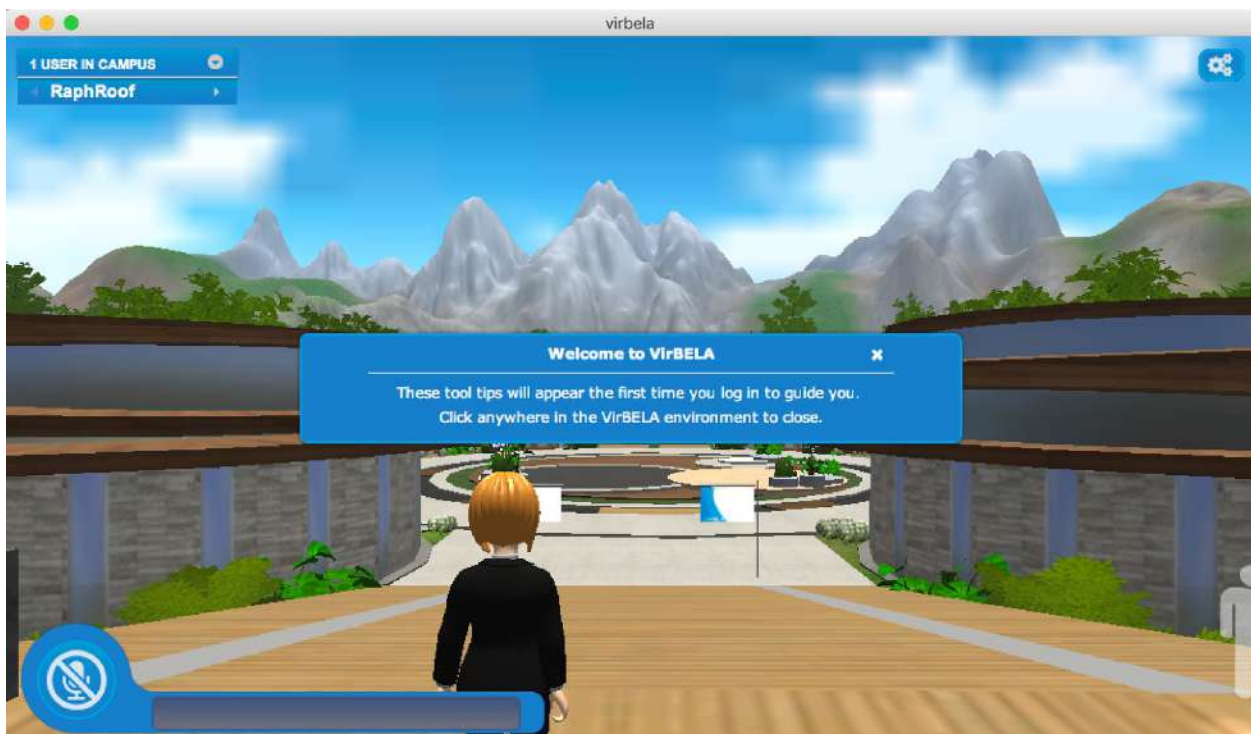

10. Once you have created your account, log in.

11. Personalize your avatar and validate.

12. Discover the first features you can use on the campus with the help of pop up messages.
